Thank you so much. This will help an enormous amount.

I'm trying to finish updating quantities for the PP, combining/finalizing pdfs for Appendix L, N and P and FS Section 4.

Hi Sheila.

If the offer still stands, can you pdf and these tables and make the list of tables for the TOC?

I'm a bit confused by one part of Elizabeth's message (highlighted below). I've attached the email Kristine sent Friday morning, but I note there are additional tables in that message that Elizabeth is saying are ready to go and were not changed.

I'm sorry, there are so many new tables added to this appendix, it's throwing me for a loop.

Hi Scott,

I'm sorry this took so long. I renumbered the tables in the file Brianna sent to the correct tables numbers in the revised text. I couldn't find Tables J2.2-2, so I made those and included them. Any other modifications are included here, otherwise, what Kristine sent this morning should be used. I formatted the text in Appendix J, and updated the table of contents. I didn't make a pdf because someone needs to make list of the tables first. Let me know if you need help pdfing the tables and making the list of tables, Sheila assures me that all that is within her skill set ;-)

E

Hi Kristine/Elizabeth,

I see you renumbered some tables in the text and your instructions said they were tables we already had, so I'm assuming they are the attached tables that we did on Tuesday with Elizabeth.

I'm a little worried about messing the numbering up since I'm not exactly sure which tables should be what.

I've attached the file with DDt and DDE-44 like we talked about over the phone the other day.

Would you be able to renumber this file the way you want them numbered and send it back to me please? I just really don't want to renumber them incorrectly.

Feel free to give Scott a call if you have questions.

Thank you very much!
